Эксперимент: «Как растения пьют воду»

Математика: «Путешествие в сказку»

Рисование: «Весна»

A vibrant spring garden scene. The top half is filled with pink cherry blossoms on dark brown branches. Several blue butterflies with white markings are scattered throughout the scene, some near the blossoms and others in the open air. The background is a soft, out-of-focus green with a bokeh effect of light yellow and white circles. The bottom half of the image shows a lush green lawn with several yellow daisies and white dandelion seed heads. A few small red ladybugs are visible on the grass.
